Shareefah Hakimi - Project Manager

Dashboard Functionality

Dashboard Feature	Your Request
Reference dashboard	Create a unique dashboard to display the starting and ending locations, aggregated by location.
Access	Access will be provided as read-only to the user profiles listed in this document.
Scope	Fields include: station, zip code, neighborhood, and/or borough, year, month, trip count, weather
Date filters and granularity	Data filters can be applied for the following: Date, Month, Year Granularity: Any chart with user detail metrics should have the ability to click on that metric to view specific information.

Metrics and Charts

Please create a table like the example below for each chart that you’d like to include in the dashboard. If you’d like to break the dashboard under different headers, feel free to list those here as well.

Chart 1

Chart Feature	Your Request
Chart title	Start & End Locations
Chart type	Table
Dimension(s)	Zip code end
Metric(s)	Trip time count

Chart 2

Chart Feature	Your Request
Chart title	Total trip minutes by destination
Chart type	Bar chart
Dimension(s)	Zip code end, borough end, neighborhood end.
Metric(s)	Location of starting and ending stations

Chart 3

Chart Feature	Your Request
Chart title	Annual growth percentage
Chart type	Table
Dimension(s)	Zip code end, number of trips, grand total
Metric(s)	Trip minutes

Chart 4

Chart Feature	Your Request
Chart title	Number of trips by starting and destination
Chart type	Table
Dimension(s)	Zip code end, number of trips, sub-total
Metric(s)	Trip counts

Chart 5

Chart Feature	Your Request
Chart title	Seasonal trends
Chart type	Line
Dimension(s)	Neighborhood start, neighborhood end, number of rides, average trip duration, weather
Metric(s)	Trip minutes, weather, number of rides
